

view::PacmanView::onNotify

```
graph LR; A[view::PacmanView::onNotify] --> B[view::PacmanView::stopDeath]
```

A diagram showing a call from the `onNotify` method to the `stopDeath` method. The `onNotify` method is represented by a white box with a black border, and the `stopDeath` method is represented by a gray box with a black border. A blue arrow points from the `onNotify` box to the `stopDeath` box.
