

view::PacmanView::onNotify

```
graph LR; A[view::PacmanView::onNotify] --> B[view::PacmanView::startDeath]
```

A diagram showing a call from the `onNotify` method to the `startDeath` method. The `onNotify` box is white with a black border, and the `startDeath` box is gray with a black border. A blue arrow points from the right side of the `onNotify` box to the left side of the `startDeath` box.
